Kate Epp
Programmer / Application Developer
CONTAX INC.
893 Yonge Street
Toronto, ON, Canada, M4W 2H2

Dear Kate Epp:

I am writing to you regarding the programmer/application developer position available at CONTAX INC. When I read about the company, I noticed that you guys' job has a great deal to do with SAP which immediately grabbed my attention because I had heard a lot about that platform in the past. I also noticed that interns will exposed to JAVA which is a language that I am very comfortable with and have been working with for a quite a while now.

As you will see from the enclosed resume, I have more than 5 years of experience in the field of Java programming. At university of Toronto, I have taken the course CSC207 which is a software design course that solely focuses on JAVA. My experience in this course and all the other courses taken up until now have given the opportunity of working with a diverse group of people during the years which I am hoping to utilize when I am part of your dynamic team.

I truly believe that I would be a great fit with your team, and I am looking forward to meeting with you to discuss how my qualifications and education matches your needs. You can contact me at (416)-553-4663.

Sincerely,

Arshia Gharai
Enclosure
